Worcester's Leading Millinery Store

Authorative and Exclusive Styles That at All Times Reflect the Latest Approved Fashions

¶ The leading Paris, London and American artists contribute to our showing of fashionable millinery. This display is greatly enhanced by the exclusive designs by our own corps of experts, who are in a position to know the style changes at their inception.

Quality First --- Then Price

¶ Real hat satisfaction can be realized only when quality has been given the most careful consideration. Best quality and correct style, at a moderate price, is making friends every day, for Schloss' hats. We respectfully solicit **your** patronage.

Marketing

If good goods at correct prices are desired, then our stores are the best stores in which to do your marketing.

If a great variety of food products to select from is an advantage, our stores offer the best opportunities.

If orderly display of goods, "one price" to all and plainly marked prices, are desirable, then our stores are in advance of all other markets.

If absolutely square and straightforward business methods are preferable to faking and the use of trade tricks, then you will give our stores preference.

If the above statements are correct, with reference to our markets, and we think you will concede they are, you cannot afford to spend money daily where you obtain less for it than you can get in our stores.

Preface

HE Seventh edition of THE BLUE BOOK possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make THE BLUE BOOK as nearly perfect as it is possible to make such a volume.

We do not claim THE BLUE BOOK is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of the more prominent householders and residents published in the most convenient form for reference by our lady patrons.

The title "The Blue Book" is given the work because of its blue cover. It does not refer to blue blood, as many people suppose. Webster's definition of Blue Book is as follows: "Blue Book—a book containing a list of fashionable addresses."

Please send any information you may have that will aid in keeping the records correct to Dau Publishing Co., 40 West 33rd Street, New York City.

What the Union Laundry Does

The Union Laundry launders Shirts, Collars, Cuffs Shirt Waists, Petticoats, Skirts, Lawn Dresses and Ladies' Lingerie of all kinds better than they have ever been laundered before, at any other place. Its lady manager gives her personal attention to laundering for ladies, and would be pleased to receive a visit from any one interested in good laundering.

If every person in Worcester knew of the modern methods of laundering, and the careful treatment accorded each article sent to the Union Laundry it is certain that they would patronize this laundry with every article which they wished handled carefully and laundered well.

¶ If you desire your laundry work done better than the ordinary way kindly telephone and we will send one of our fifteen wagons.

THE EVOLUTION OF THE PEERLESS

THE most obvious characteristic of the Peerless is its irreproachable beauty—its grace of line and its perfection of finish. Yet the beauty of the Peerless is but a subordinate aim of its makers.

Safety is the first essential, comfort is the second; and not until these imperative qualities have been achieved in the highest possible degree is there any deliberate attention to appearances.

The beauty of the Peerless therefore has this significance: It is the final expression of that type of absolutely faithful construction that insists on fundamentals first—and by so doing evolves naturally into the beauty of form that results from correct design, the best materials, deliberate manufacture and thorough maturity of every detail.

THREE SIX-CYLINDER MODELS

"38-Six," "48-Six," "60-Six." Scientific heat treatment of steel parts; electric starting and lighting; irreversible steering gear; long stroke motors; seven distinctive body types, at $4300 to $7200.

To Women Who Know

Miss Driscoll says, "Nine women out of ten are improperly corseted."

"Physicians can testify to the truth of the above statement."

"The NuBone Corset is constructed on hygienic and natural lines and is made to measure only."

"The foundation of our success lies in the wonderful **NuBone** triple woven wire stay which while giving proper support, conforms to every movement of the body. It is rust proof and guaranteed not to break in a year of corset wear."

See the wonderful NuBone Models before you buy your next corset.
